

...COUNTDOWN TO HASSLE-FREE TRANSPORTATION

10 ONE FEE INCLUDES ALL

Our all-inclusive monthly fee covers all your costs: insurance, gas, maintenance, roadside assistance, back-up vans, etc. That helps keep your money where it belongs – in your pocket.

9 FREQUENT COST ANALYSIS

Our fees are based on an estimate of how many miles a van will travel monthly. To ensure that your “estimate” doesn’t stray far from your “actual,” we compare the two figures quarterly... and pass on any potential savings to you.

8 QUICK & EASY REPORTING

Who needs more paperwork? At the end of each month, you send us a brief mileage and expense report, and a vehicle inspection report... and you’re done.

7 SHORT-TERM COMMITMENT

Business equals change – sometimes at a moments notice. Our month-to-month leasing plans give you the flexibility to respond quickly to the shifting demands of your business.

6 “CHARGE IT!”

Need gas... a quart of oil... new wipers... a refill of washing fluid? One thing you don’t need is cash. We provide you with a credit card... and we pay the bill.

5 SAFETY-FIRST SERVICE

The safety of our riders is our primary concern. That’s why we cover the cost of an 85-point safety inspection every 5,000 miles... plus the maintenance of tires, batteries and brakes.

4 UNINTERRUPTED SERVICE

We won’t leave you stranded when your van is on the blink – roadside assistance is available 24/7. A replacement van is delivered to your door when your van is in the shop.

3 SAFE DRIVER QUALIFICATION

Knowing your employee is behind the wheel is a key component of our campaign to keep riders safe. We carefully research and review the driving record of each of your chosen van drivers ... so you don’t have to..

2 QUICK DELIVERY

We work fast to meet your needs. Depending on the features requested, vans can be delivered in as few as three days.

Getting in Step with The Rideshare Company Van Partnership Program.

It starts with a phone call. A service provider has a fleet of vans that is old and ailing... or a fleet that has grown too costly or too complicated to maintain... or one that is simply too small to suit the organization’s expanding needs.

CAN THE RIDESHARE COMPANY HELP?

The answer, most often is YES!

The Rideshare Company is a leader in offering convenient, cost-effective and customer-oriented solutions to a service provider’s transportation problem. Coming on board with The Rideshare Company program is quick, easy and efficient. Here’s a step-by-step look at our simple, hassle-free start-up process:

Step 1: Meeting of the minds.

It’s a go when we know that The Rideshare Company makes economic sense for you. We work together to evaluate your current costs versus your costs with The Rideshare Company. If our program is economically feasible, we’ll say so. If it isn’t, we’ll say that too.

Step 2: Pushing papers.

We keep paperwork to a minimum – however, we do require driver applications from your employees who will be behind the wheel. Their good driving record ensures the safety of your riders and gives you peace of mind.

Step 3: Devising a plan.

We carefully analyze your needs to determine the most appropriate van size and mileage plan. We monitor usage on a quarterly basis. If we find that your plan is not the most economical, we’ll suggest immediate adjustments.

Step 4: Scheduling delivery.

We don’t just drop off The Rideshare Company vans and wish you well. We also provide an on-site “training” program to familiarize workers with the vehicles, as well as the program’s processes and procedures.

Step 5: Staying in touch.

The Rideshare Company van program is a partnership. To ensure our partners are on track and getting the most out of The Rideshare Company program we’ll keep in touch often... We hope you will too.
