

easyfleet vehicles
and management
make **your organization's**
transportation easy.

A unique vehicle lease program that helps organizations transport people with ease.

Many businesses and organizations need vehicles to get people from point A to point B. What they don't need or want are headaches and hassles associated with those vehicles. That's where The Rideshare Company's easy fleet program comes in. This unique, **all-inclusive** lease program provides vehicles that range from lift vans, to full-size passenger vans and smaller passenger vehicles. All without tying up an

organization's capital,
and without the
headaches
associated with
owning or
leasing vehicles.

**Gas, insurance,
and maintenance
made simple.**

With easy fleet, organizations pay one monthly fee for each vehicle they need. The Rideshare Company takes care of the rest. We start with a needs analysis of the organization. We then provide a detailed cost comparison that shows how economical it is to utilize the easy fleet program. With The Rideshare Company managing the logistics and accounting associated with all routine maintenance, gas, insurance and more, organizations quickly see and experience the value that truly makes easy fleet, easy.

Vehicle options make for a perfect lift.

Depending on the transport needs of an organization, easy fleet provides vehicles to suit our customers' needs. Currently, Rideshare has more than 400 vehicles deployed to 40+ customers. We have 22 models of vehicles deployed – from full-size vans, minivans and cars to handicap-accessible lift or ramp-enabled vehicles – and even pickup trucks (for work teams). We work directly to identify the appropriate vehicle(s) to suit your needs as you transition to a Rideshare-owned and managed fleet.

Maintenance worries are a thing of the past.

The Rideshare Company's easy fleet program takes this burden off the organization. We work diligently to monitor the safety and reliability of the vehicles in our fleet. With just one phone call, easy fleet coordinates all service needs and covers all costs. When maintenance or repairs are needed, The Rideshare Company handles the logistics and comes onsite to deliver a temporary replacement vehicle to ensure seamless transportation.

Short-term lease options are an added feature.

For existing clients that may need a temporary vehicle replacement for their fleet due to capacity needs or maintenance issues, easy fleet offers a short-term lease program. It includes the same hassle-free service and single-cost simplicity that make all vehicles in easy fleet, the easiest way to go in leasing.
